—Some one says: The great objection to smart children is, that when they commence having whiskers they leave off having brains. Boys that are philosophers at six years of age, are generally blockheads at twenty-one. By forcing children, you get so much into their heads that they become cracked in order to hold it.

Waterworks Company.

THIS COMPANY IS ORGANIZED for three main purposes: FIRST—The purchase and improvement of 220 acres of land near the State University. SECOND—The immediate construction on a portion of said land of a first-class hotel, with numerous cottages and villas; and THIRD—The construction of water works of such a character as will secure a sufficiency of water for the wants of Berkeley for many years to come.

The site of the land is extremely picturesque and charming. The property contains within itself the invaluable water privileges which are necessary for the water works—one reservoir alone will have a capacity of one hundred and fifty millions of gallons, principally fed from the Cardonices Creek.

The Company is organized with 5,000 shares of $100 each, payable in installments of FIVE DOLLARS per share per month.

The names of the Directors are a sufficient guarantee that the affairs of the Company will be judiciously and efficiently conducted.

Shares can be had on application to the Secretary or any of the Directors. Buy them. They will prove a splendid investment.

THE LOST CAUSE.

A MAGNIFICENT PICTURE 14x18 INCHES in size, printed on heavy plate paper, beautiful in design and artistic in execution. It represents a Confederate soldier after the war returning to his home, which he finds lonely and desolate. In front of the ruined cottage, telling a sad tale of the miseries of the war, are two graves with rude crosses, on one of which some friendly hand has hung a garland. To the right the calm river and the rising moon indicate peace and rest. The stars seen through the trees, represent the Southern Cross. It is a picture that will touch every Southern heart and should find a place in every Southern home. Sent by mail mounted on a roller and post-paid on receipt of 25 cents, or 3 for 60 cents. Address

TERMS—One year (cash in advance), $6; Six months, $4; Three months, $2 50.

OFFICES } 911 Broadway, Oakland. 504 Montgomery, San Francisco.

Served by Carriers..................... 25 Cents per Week

The circulation of the TRIBUNE is more than double that of any paper published in Alameda County.

"TRIBUNE" FOR SALE.

THE ENTIRE BUSINESS AND MATERIAL of the "Oakland Daily Evening Tribune" are offered for sale. Further particulars by applying to or addressing BEN. A. DEWES, Oakland.

REMARKS.

In offering the TRIBUNE for sale, I do so solely on account of failing health. Having now been confined to my bed for the past six months by sickness, brought on by overwork, I find that my business cares are taxing my health and strength too severely, allowing me no rest, or opportunity for recovery.

The TRIBUNE is acknowledged to be the best newspaper property in Alameda county, and has about three times the circulation and double the patronage of any other paper issued in this city. It is in a most flourishing condition. The business is thoroughly established, and on a sound and paying basis.

I will continue the business as heretofore, making improvements in keeping with the times, being willing to withdraw for the sole reason that my health demands the change.

BEN A. DEWES, Manager "Tribune."

WHEN there is a primary election, nobody is responsible for the results, however scandalous. It is the reverse when a County Central Committee appoints a Convention. Under the plan adopted Saturday, each member is directly responsible for the selections made. If unfit persons get into the Convention, if the tools of the Federal or any other ring are brought into prominence, the men who caused it will very effectually kill themselves off as aspirants for anything in the future within the gift of the people.

WHILE we find fault about the increase of fare on the San Francisco roads, we will at the same time remind our friends on the wrong side of the Bay that the fare to Oakland is only 5 cents—$3 per month. If they do not like the imposition attempted by their street railroad companies, they can save money by becoming patrons of the Oakland ferry, and also find much pleasanter homes than at the Mission or the Northern Addition. If we were very selfish, we would wish that those horse car men would raise fares to half a dollar each.

THE appointment of an officer to collect licenses is a good measure in a double sense. It will relieve the Marshal so that he can give nearly all of his time to street work, and will also secure the collection of a license from many who now escape. But we cannot see why in the world a Deputy License Collector should get such big pay — $150 per month. That is the salary of the City Treasurer, the Police Judge and the Captain of Police — offices of great responsibility. A Deputy License Collector will have scarcely any responsibility. His duties will be very simple, and a policeman's pay, $100 per month, is enough.

WITHOUT any note of warning rates of fare have been raised on the San Francisco street railroads which formerly charged five cents. This is merely a combination to extort from the public. One of the five cent roads, the North Beach, Mission and Ocean, paid $5,000 a month dividends during eleven months last year. Woodward's road pays an enormous profit, but the owner will not allow a statement of its business to reach the public. Any pretence that the raise is necessary, is the merest sham. It is a great pity that the Legislature was not strong enough to reduce the fares on all of the roads to five cents, a price that will yield the companies a very large interest on the capital actually invested.

IMPROVING THE CITY.

In every part of the city there can be seen houses just finished, unfinished buildings that are rapidly assuming shape, and foundations for projected improvements. We doubt if any previous year has opened with as good prospects. The western portion, or Point, is a city by itself, and is daily becoming more and more compact. The population is mainly composed of mechanics, who are the backbone of any community, and its most influential and useful class of residents. The vast business of the Central Pacific Railroad Company has attracted hundreds of persons to West Oakland, where they find permanent employment, and where they soon become owners of the homes that shelter them. In the central part of the city and on the lines of the street railroad there is a rapid forward movement, and East Oakland keeps pace. Several valuable buildings, designed for business purposes, are rearing their walls, and there is a demand for many more. It is probable that there would be far heavier investments in this kind of property if it could be readily seen which way the expansion of the business part of the city will reach. With but one or two notable exceptions, good buildings have been erected only on the tier of blocks on each side of Broadway. If there were more faith in the future importance of some other street, as Eighth or Twelfth, there would, no doubt, be some very heavy investments. The extensive improvements going on at the foot of Broadway will render certain the supremacy of that street. The signs of progress to be seen on every hand are exceedingly gratifying, and they assure us that the improvements for the Centennial year will be more numerous and more valuable than for any previous year in the city's history.

PUBLIC SPEAKERS AND SINGERS find Kottle Whisky beneficial in clearing the voice and preventing affections of the throat.—Musical Journal. For sale at R. McCrum & Co's, corner Twelfth and Broadway.

EASTERN SOLID WALNUT SUITES sold for less than San Francisco prices, at the [illegible] Furniture Warerooms, Nos. 1106 and [illegible] Broadway, between Twelfth and Thirteenth streets, Christian Schreiber, proprietor.

FAIR PLAY ESSENTIAL.

A few months ago there was a County Convention in this city, composed of very respectable men, but in a very quiet way it seemed to do the work laid out for it by the self-constituted guardians of the Alameda county Republicans. With one exception, the delegates it sent to Sacramento "went the programme," and it was one that by no means suited the people. The trick of thus packing a Convention and giving an appearance of fairness, is very well understood, and nobody in this community will be deceived by it. The office-holding brigade in this State are determined to capture the State Convention, if such a thing be possible, no matter what may be the result to the party. They would prefer the defeat of the party here to their own retirement as leaders. The mass of the Republican party are sick and tired of a political dynasty that has caused so much mischief; they are tired at the everlasting interference of Carr and Gorham in local politics, through men who are holding office by their favor. In common with the non-officeholding Republicans of Alameda county, we hope that the forthcoming Convention will not be under the control of anybody; that it will be in fact, as in name, a coming together of members of the party to choose representative men to a State Convention. We do not desire to see war declared upon the Federal office-holders, or anything of that sort. All we ask is that they shall not be allowed to control our conventions and defeat the wishes of a majority of their party, as they have so often done in the past.

There are thousands of persons in California who will not identify themselves with either party, but who cast their votes according to the varying changes of party policy, and the merits of candidates. Many of our most prominent citizens are claimed as members of both parties. Such persons determine the results of our elections. The bulk of the people will ordinarily vote any ticket put up in the name of the party to which they belong. The non-partizan vote of which we speak will in any event be thrown against the Republican party, as long as its conventions are controlled by any clique or gang of office seekers or spoilsmen, no matter who they may be. If a Republican victory would perpetuate the rule of Carr and Gorham, there are enough independent thinking voters to prevent it. The strength of the parties is very evenly divided, and if Mr. Sargent wants to do the most good, he will issue orders to his underlings to break ranks and give up their organized efforts to defeat the wishes of the great mass of the Republican party.

THE PRESIDENT'S SALARY.

It is taken for granted that the President will veto the bill reducing the salary of that office. At this time, nobody can accuse President Grant or feeling any personal interest in the measure, and his most unsparing critics will make no point by abusing him. We think that some of the late revelations concerning Washington society show the necessity of granting to high public officials salary enough to pay for style, if style we are to have. It costs Secretary Fish $70,000 per annum to live in a manner deemed becoming and the disgrace of Belknap, Williams and other Cabinet officers is attributable to the comparatively small pay and extensive demands of society. To cut down the salary of the President looks like a piece of buncombe, an unwarranted piece of meanness. Those who are guests at the White House are guests of the Nation; when the President holds a costly reception, it is not his individual act, nor are the entertainments which courtesy requires the Secretary of State to give from time to time, anything that concern Mr. Fish as a private citizen. The country has lately seen some of her prominent men disgraced because a false pride induced them to resort to dishonest means to keep up a show of style that they should not pay for. The cutting down of the President's pay is calculated to aggravate this evil, and by a timely veto General Grant will save his successor in office much embarrassment.

WILSON, AT NO. 961 BROADWAY, has on display as fine and choice a stock of Watches, Clocks and Jewelry as can be seen this side the bay.

—The "gentleman King of England" had a plain country 'squire to dine with him one day. When game was put upon the table, and the 'squire got a snipe on his plate, he took it by the legs and began to twist them off in his rough, homely style. The attendants were horrified. The King saw it, and knew that if the 'squire should glance up and see their looks he would know that he was doing something dreadful, and be covered with confusion, whereupon the King took his own snipe by the legs and began twisting them off as the 'squire was doing. What a fine case of the usual form of politeness withdrawing behind the principle which seeks to protect the feelings of others!

TELEGRAPH MINING COMPANY!

ON THE COMSTOCK LODE.

Capital Stock, - - - - - - - - $6,000,000

Divided Into Sixty Thousand Shares of One Hundred Dollars Each, Twenty-five Thousand Shares reserved for Working Capital.

THE TELEGRAPH MINING COMPANY, INCORPORATED UNDER THE LAWS OF THE State of California, April 1st, 1876, has purchased 900 feet of rich gold and silver mining ground on the celebrated Comstock Lode, upon which are located the California, Consolidated Virginia, Ophir, and other well known profitable mines. The mine is situated between the Utah, Orleans and Ward mines, and the rock taken from it yields a high return of gold and silver. The Directors have reserved 25,000 Shares of the Capital Stock of the Company for working purposes, in order to avoid any danger of being compelled to assess the Stock. Ten Thousand Shares of this reserved Stock will be offered at once for subscription at ONE DOLLAR per share. The other 15,000 shares will be disposed of from time to time through the Stock Boards, as occasion may require, and the Directors may think most profitable for the working of the mine. As soon as the Ten Thousand Shares now offered are taken, the Stock will be placed upon the Boards of the respective Stock Exchanges and will at once command a figure more than double the price now asked for the original subscriptions. It is confidently believed that this mine, by reason of its location on the Comstock Lode and its close proximity to the Utah will in a short time reach as high a value per share as the last named mine commands, which would be an increase of over twenty-five hundred per cent on the price at which the stock is now offered to original subscribers.

The books of the Company will be opened for subscription, April 19th, at the office of the Company, No. 224 Montgomery street, San Francisco.

BERKELEY REAL ESTATE

....AND....

Waterworks Company.

THIS COMPANY IS ORGANIZED for three main purposes: FIRST—The purchase and improvement of 220 acres of land near the State University. SECOND—The immediate construction on a portion of said land of a first-class hotel, with numerous cottages and villas, and THIRD—The construction of water works of such a character as will secure a sufficiency of water for the wants of Berkeley for many years to come.

The site of the land is extremely picturesque and charming. The property contains within itself the invaluable water privileges which are necessary for the water works—one reservoir alone will have a capacity of one hundred and fifty millions of gallons, principally fed from the Cordonices Creek.

The Company is organized with 5,000 shares of $100 each, payable in installments of FIVE DOLLARS per share per month.

The names of the Directors are a sufficient guarantee that the affairs of the Company will be judiciously and efficiently conducted.

Shares can be had on application to the Secretary or any of the Directors. Buy them. They will prove a splendid investment.

REDUCTION IN GAS.

Important to Landlords and Gas Consumers.

SAFETY AND ECONOMY.

OFFICE OAKLAND GASLIGHT CO., February 1, 1876.

IN PURSUANCE OF THE POLICY followed by this Company since its formation to lower its rates as rapidly as it was warranted by the growth of the city, the price of gas will be reduced on the

1st Day of March Next

—TO—

$4 25 PER 1,000 CUBIC FEET

Considering the value of coal and labor, the limited use of gas, and the distance between the places of consumption,

Oakland will be the most cheaply lighted city in the Union

This price will leave no valid excuse for the use of any illuminant but coal gas, [illegible] which are now and have been since their use, [illegible]

The advantages to be reaped by the public from Cheap Gas are—

1st—A daily saving in the cost of one of the necessaries of life.

2d—A decrease in the number of destructive fires caused by the use of the volatile derivatives of Petroleum.

3d—A saving of human life by substituting stationary lights for brittle lamps.

4th—The most convenient and safest light brought within the means of the most economical household.

However small the house, the economy will be great. If insured, the rate of premium will be lessened; if not insured, the risk of loss will be decreased.

This reduction can only be profitable to the Company, by the accession of a sufficient number of new consumers to compensate for the lessening of its present receipts; and it will become the interest of all consumers of gas, to induce their neighbors to adopt this light, in order that further reductions may be made in the future.

The attention of consumers is also directed to the use of gas for heating and cooking. In Europe and the Eastern cities it has been adopted to a great extent and its use is constantly extending.

It is to be hoped that this movement will be accepted in the spirit which has inspired it, and which has always characterized the Company, viz:

That the Interests of Consumers and the Company are Identical.

The Company are constantly advised of all changes in modes of manufacture and distribution, and will at all times avail itself of any real improvements which tend to improve quality and lessen price.

A Bear in a China Shop.

Doubtless many of our readers have witnessed the play of "A Bull in a China Shop," but at 11 o'clock to-morrow, at their auction room under the Grand Central Hotel, Messrs. Lulley & Sons will play the part of the "bear" in a China shop, by offering for sale to the highest bidder a very large and valuable stock of new China, glass and crockery ware. This will afford a rare opportunity for those who wish to purchase at their own prices, as the sale is peremptory.

AS WE APPROACH OUR CENTENNIAL anniversary it affords great satisfaction and pride to the American people to contemplate our wonderful growth and progress as a nation during the first century of our existence. And the many grand and important inventions and discoveries which have been so beneficial to science, agriculture and the mechanical arts, scores might be named which have contributed more or less to the wonderful development of the nation. Aside from the more prominent achievements, such as the steamboat, railroad, telegraph, etc., there are numerous discoveries which in a lesser degree have accomplished wonders in their sphere of action and gained the unqualified esteem of thousands who have been benefitted thereby. Prominent among the list of articles in a medicinal direction, we are compelled by a strict adherence to truth and justice, to mention favorably one which in the short space of two years has by its own merits gained a high position in the estimation of thousands who have been very materially benefitted by its use. We refer to the YERBA BUENA BITTERS, made by Homer Williams & Co., 65 New Montgomery street, San Francisco, which as a cathartic and regulator, purifying and renovating the entire system, stands unrivalled.

HENRY HAUSCHILDT (FORMERLY of Senram & Co.) begs to inform his friends and the public in general that he has opened at No. 1067 Broadway, between Eleventh and Twelfth streets, with the finest stock of Boots and Shoes ever brought to this market, which he offers to sell at lower prices than any store in this city, at least, at San Francisco prices. Repairing done neatly and with dispatch.

The Street Committee reported adversely to the prayer of the Alameda, Oakland and Piedmont Railroad Company for a franchise—unless said company shall relinquish its claim to Water street, and in that event the committee will recommend that said company have the right of way through Webster street to Second and thence along Second street to Broadway.

In the matter of bill of Butler & Bowman for printing for Board of Health, the Finance Committee returned the bill to the Council for its action, as the Board of Health had no authority for contracting the debt.

Also in the matter of bill of S. K. Bullard, recommending that the bill be paid for $35.

In the matter of the contract with the *News* for city printing, the committee fully sustained the Marshal in his interpretation of the contract.

Against accepting bid for grading engine lot in East Oakland.

In favor of erection of fire alarm box at the corner of Twelfth and Market streets.

The Police Committee reported, after consultation with the Captain of Police, and upon his advice, against any further increase of the regular police force at present.

FIRE ALARM MATTERS.

Captain Rand reported the completion of a new police office at East Oakland, and connecting of same with the police telegraph. That the telegraph had been extended at West Oakland, and a gong erected in the engine-house. Wire extended and an alarm box erected on the corner of Broadway and Twelfth street. Also erected an alarm box corner East Twelfth street and Sixth avenue. There are now erected eight fire alarm boxes as follows: On Seventh, between Wood and Willow; corner Seventh and Adeline; Seventh and Market; Seventh and Washington; Twelfth and Broadway; Twelfth and Oak; Sixth avenue and East Twelfth street; Twelfth avenue and East Twelfth street.

WANTS TO GET MARRIED.

Captain Rand sent in a communication requesting two weeks' leave of absence for Officer George H. Carleton, and "hoped the request would be granted, as he (Captain Rand) desired that all the officers on the force should be married men." [Laughter.] Leave granted.

REPORTS.

City Treasurer Hillebrand reported the amount of money in the City Treasury to be $85,358 38, of which the sum of $1,137 35 is in silver coin, $405 30 of which belongs to the Salary Fund and $732 05 to the General Fund.

City Marshall Johnson reported the opening of Peralta street from First street to the northern boundary of the city.

The report of the City Wharfinger for the week ending April 8th was received; it shows the receipts for dockage, $83 50; wharfage, $90 95; total, $145 95. Also week ending April 15th, dockage, $93; wharfage, $52 95; total, $145 95.

STREET WORK.

Resolutions were adopted awarding the contract for the grading and macadamizing of Ninth street, from Clay to Market, to the Oakland Paving Company.

Awarding contract for work of grading West street, from Fourteenth to Eighteenth street, to Julius Heimboldt.

Of intention to order the work of constructing sewer in Clay street, from Fourteenth street to San Pablo avenue sewer.

Of intention to order the work of constructing 4-feet plank sidewalks on Twenty-sixth street, from San Pablo avenue to Grove street.

Of intention to order the work of grading and macadamizing Twenty-sixth street from San Pablo avenue to Oak street.

Of intention to order the work of constructing 4-feet plank sidewalks on Twenty-seventh street, from San Pablo avenue to Oak street.

THE EIGHTH STREET BRIDGE.

Councilman Miner presented the following which was adopted:

WHEREAS, It is the intention of this Council to order the construction of a bridge across the estuary of San Antonio, between Eighth street and East Ninth street; and

WHEREAS, Eigth street, between Oak street and East Front street is obstructed by fences; therefore,

Resolved, That the City Marshall be and is hereby instructed and required to notify all persons obstructing Eighth street in said city, between Oak street and East Front street, to remove all such obstructions within ten days from the time of the service of such notice, and if such obstructions are not removed at the time specified in the notice, after service as aforesaid had upon each, then said City Marshal is hereby ordered to proceed immediately thereafter to remove all obstructions from said street between the above named points.

Mr. Miner also presented the following: *Resolved*, That the City Engineer be, and he is, hereby authorized and instructed to prepare the necessary plans and specifications for the construction of a bridge across the Estuary of San Antonio from Eighth street on the westerly shore of said Estuary to East Ninth on the easterly shore of said Estuary, according to the provisions of an Act entitled an "Act to authorize the city of Oakland to construct a bridge across the Estuary between Eighth street and East Ninth street."

Councilman Ford said he thought the Council ought to be better informed upon the law before proceeding too far with this bridge matter; it ought to have a certified copy of the Act. He had no particular objection to the preparation of the plans and specifications, provided they would not cost too much, but he had objections to going any further until we know the features of that bill. He thought the city should pay one-half the expense of constructing the bridge, as the whole cost would fall very heavily upon the property holders along the route. The city did not even ask the property holders along Twelfth street to pay any portion of the expense of constructing the proposed solid causeway across Lake Merritt, and even the city itself did not feel able to bear the whole expense, but had asked the county to bear one-half the burden. Yet the cost of that structure will be only about $20,000, and here these people in the vicinity of Eighth street and the bridge will be called upon to bear the whole burden of constructing a $30,000 bridge. The people do not fully realize what a burden this will be upon them, and they ought to be allowed time to ponder and to protest.

Mr. Ford then asked Engineer Arnold what the probable cost of plans and specifications would be.

Mr. Arnold replied that he could not tell at present, but his understanding of the law was that unless the bridge was constructed no charge could be made for the plans, etc.

Mr. Ford then withdrew his objections and the resolution was unanimously adopted.

LOCAL LAWS.

Mr. Miner introduced and the Council adopted a resolution instructing the Clerk to obtain certified copies of all laws passed at the last session of the Legislature pertaining to the city of Oakland, at a cost not to exceed $50.

DEPUTY LICENSE COLLECTOR.

Mr. Miner introduced an ordinance authorizing the City Marshal to appoint a Deputy License Collector at a salary of $150 per month. The ordinance was passed, under a suspension of the rules.

PERALTA STREET OPEN.

An ordinance was introduced, and passed under a suspension of the rules, declaring Peralta street open and a public highway from First street to the northern boundary of the city.

TO PROHIBIT GAMBLING.

Mr. Miner introduced an ordinance to prevent and prohibit gambling and gaming houses. Makes the drawing of a card, the throwing of a dice or the playing of any game of chance for a valuable consideration a misdemeanor, with a penalty of $100 fine or fifty days imprisonment, and those letting premises for such purposes or permitting such practices on their premises are subject to all the fines and penalties. Referred to the Ordinance and Judiciary Committee.

AFTER THE VELOCIPEDS.

A petition was received from a number of prominent citizens praying for the passage of an ordinance prohibiting the running of velocipedes and "similar vehicles" on the sidewalks and streets.

President Dods said if there was no objection the petition would be referred to the Committee on Removals and Obstructions. "So referred."

Mr. Ford said he couldn't see how that committee could very well "remove" the "obstructions" without the authority of an ordinance.

President Dods saw the point, took it all back, and referred the petition to the Ordinance and Judiciary Committee.

ANOTHER STREET RAILROAD.

A petition was received from J. L. Wetmore, W. B. Hardy and H. T. Sohst, praying for a franchise to construct and operate a horse railroad upon the following streets and avenues: Commencing at the intersection of Eighth street with the easterly line of Broadway, and running thence easterly along Eighth street and across the proposed bridge over San Antonio creek to East Ninth street; thence along East Ninth street to Fifth avenue; thence northerly along Fifth avenue to East Tenth street; thence easterly along East Tenth street to Tenth avenue; thence northerly along Tenth avenue to East Eleventh street; thence easterly along East Eleventh street to Thirteenth avenue. The following petitions were read and referred to appropriate committees:

From Dr. T. Bechtinger, asking permission to erect a three-foot sign corner of Peralta and William streets.

From John Glass, asking permission to remove a tree on Filbert street. Referred to Committee on Removals and Obstructions, with power to act.

THE POLICE FORCE.

A petition numerously signed was read, asking for an increase of the regular police force to twenty-five officers, and stating that the present force is not sufficient to insure adequate protection; that north of Fourteenth street a regular policeman is seldom seen, and that no less than seven burglaries have been committed in that section of the city within two weeks; that two attempts have recently been made to rob men of their watches in the public streets, and that the "lawless howlings" of the hoodlums in the northern portion of the city is a source of the greatest annoyance. The petition was referred to the Committee on City Hall and Police.

THE VACANT SEAT.

A communication was received from F. M. Campbell, Superintendent of Public Schools and Secretary of the Board of Education, officially notifying the Council of a vacancy in the Board of Education, by reason of the resignation of the Rev. L. Hamilton, and requesting that the same be filled according to law at as early a period as possible.

Mr. Huntington nominated J. W. Shanklin, Esq., to fill the vacancy.

Mr. Ford seconded the nomination and paid a glowing tribute to the energy, honesty and fidelity of Mr. Shanklin as a public servant.

No other name being placed in nomination, the Clerk was instructed to cast the ballot of the Council for J. W. Shanklin.

"THE LATE GRAND JURY."

Among the bills referred were those of the members of the late Grand Jury "for seven days service."

Mr. Pumyea moved that the bills be referred to the Auditing Committee—to see if they did serve seven days.

The Clerk—They did serve seven days.

Mr. Pumyea—Well, the committee can find out, I presume.

The bills were so referred.

ROAD MATTERS.

Mr. Overacker moved that the County Surveyor be instructed to run one line of the road on survey No. 1539, across the lands of Mr. Ingalls. Carried.

Mr. Overacker then moved that the Road Overseer of Cosmopolitan Road District be authorized and instructed to open the road on survey 1539, across the land of Ingalls, according to survey. Carried.

Mr. Marlin moved that Road Overseer Stone, of San Lorenzo Road District, be authorized to construct a pump, tank and windmill, not to cost over $350, over a well in said district. Carried.

Judge Van Voorhies appeared before the Board on behalf of the property-holders of Ocean View Road District, and asked that the matter of allowing said property-holders to macadamize a road be taken up and acted upon at once. He said delay would be detrimental.

In the absence of Supervisor Shattuck, Chairman of the Judiciary Committee, to whom the matter had been referred, Mr. Pumyea, of that committee, asked and was granted further time.

The report of Peter Harrington, Overseer of Inman Road District, was, on motion of Supervisor Alviso, accepted and the accompanying bills were allowed.

The application of Overseer Davis of Eden Vale Road District for authority to repair certain culverts in his jurisdiction was referred to Supervisor Marlin, with power to act.

On motion of Supervisor Alviso, the report of the Overseer of Summit Road District, Murray township, was accepted and the accompanying bills allowed.

On motion of Supervisor Overacker, the report of the Overseer of Alvarado Road District was accepted and the accompanying bills allowed.

DRAMATIC ENTERTAINMENT.

The Beautiful Drama of "Faust and Marguerite," with Illusions, to be Given in Dietz Hall.

Some weeks since the play above referred to was given in the old Presbyterian Church; but owing to a combination of inauspicious circumstances the performance did not receive the patronage which it really merited. At the desire of many who were present on the occasion referred to, as well as many who were absent, the managers have decided to reproduce the entertainment at Dietz Hall, on Tuesday evening next, April 25th.

Many people entertained an erroneous idea in regard to the nature of the performance, and believed it to be a spiritualistic exhibition, because it was announced that the illusions were after the manner of the Katie King materialization. Nothing could be further from the truth. While the illusions are almost wonderful, and might under certain circumstances be palmed off upon a credulous audience as of a supernatural nature, they are really very simple, and in fact only physical phenomena produced by human agencies—of a very common order. The play is familiar to almost every one, and the illusionary tableaux are introduced to give greater effect to the thrilling parts of this most interesting and exciting drama. It is impossible with the pen to give a correct description of the illusions—only the eye can convey to the mind the wonderful beauty of these shadowy representations.

The recent entertainment in the church was the first exhibition of these illusions on this coast, and they alone are worth more than the price of admission. Owing to the superior stage facilities the drama will be presented in a much more acceptable manner than at first. In addition to the play there will be a recitation and some very fine vocal and instrumental music, the whole comprising one of the most attractive programmes ever offered to the amusement-loving public of Oakland.

Rebekah Degree Entertainment.

A varied and pleasing entertainment will be given at Washington Hall, opposite Tubbs Hotel, East Oakland, on Friday evening next, by Brooklyn Rebekah Degree Lodge, No. 12, Independent Order of Odd Fellows. Besides a fine band of music engaged for the orchestra and the leap year hop to be indulged in after the close of the other exercises, there will be singing by a quartette. Hon. Nathan Porter, Grand Representative to the Grand Lodge I. O. O. F. of the United States, will deliver an address. The laughable farce entitled "When the Cat's Away the Mice will Play, or Love in all Corners," will be given, with the following cast: Quake, Mr. J. J. Pensam; Simon, Mr. J. M. Holiday; Smart, Mr. George Chase; Capt. Bolding, Mr. J. K. Smallman; Charles, Mr. Henry Steere; Lucretia, Mrs. J. K. Smallman; Sophia, Mrs. Thos. F. Steere; Rose, Mrs. V. S. Northey. There will also be presented two very interesting tableaux entitled: "Rebekah at the Well," and "Faith, Hope and Charity." Mr. and Mrs. H. Wetherbee, of Fruit Vale, have volunteered to participate in the exercises of the entertainment.

Wade's Opera House.

That Mr. Robert McWade strives to the utmost to present a faithful shadowing of Washington Irving's ideal hero of Sleepy Hollow was apparent in the quiet and almost unconscious naturalness of his Rip Van Winkle. Strong in the early acts, he was at his best in the last, where his pathos is complete in his portrayal of the dazed and pathetic condition of the old man who cannot otherwise realize his twenty years' sleep than as the happening of a night. It is a most satisfying personation, and was thoroughly appreciated by a large and often applauding audience. In the second act a real "Schneider" comes upon the stage, and, seating himself at the gun which Rip had laid upon the ground at the commencement of his debauch, completes the naturalness of his master's constant illusions. Miss Mary L. Young was a very good Ella, and Miss Bertie Granville a naive and handsome Steenie. Mr. J. H. Vincent as Knickerbocker, and Miss Annie Pixley as Mrs. Knickerbocker were also very good in the support. The scenery and setting of the play were very handsome and appropriate. "Rip Van Winkle" will be repeated until further notice.

A Fool-hardy Experiment.

In 1865 a young English actor named Walter Hastings, at a club meeting, made the remark that close confinement was not a very terrible punishment, upon which Lord S. offered him £10,000 if he would try it for ten years. He accepted the offer, and retired from the stage to a dark cell fifteen by ten. He was allowed plenty of food, light, books, and writing materials. He has emerged from his prison, and is spending his hard-earned coin in Paris, intending to return to the stage. He began his fool-hardy experiment at twenty-five, but left his dungeon looking like a man of three-score.

Minorities Make Majorities.

Harper's Weekly says: "It must never be forgotten that it is always a minority which makes a majority; that is to say that it is one vote out of twenty votes which determines the eleven that constitute a majority of twenty. Whatever alienates or attracts that one vote settles the result. This is the force of a minority which is not always considered by the mangers. It is a perpetual force, under certain circumstances, and must not be disregarded in a determined game of politics.

THE FAME OF THIS PACIFIC SECTION of the United States has been heralded to the other lands not alone on account of its great mineral wealth, but also for its majestic physical geography rivaling and at times excelling in beauty and grandeur the most picturesque portions of the eastern world. Years ago, when California was to European naturalists a *terra incognita*, a section of the bark of one of the mammoth trees of Mariposa county was exported to Europe, and is now on exhibition at the Crystal Palace in London. At first, when the English savans beheld its immense thickness and girth, they were in doubt about its being genuine, as they had been taken in before by Uncle Sam's wooden hams and nutmegs. One of the botanical products of California, the Yerba Buena, whose fame in time will excel that of the Big Trees, and through the medecinal virtue by which mankind will derive more benefit, as its bitter extract has been proved to be a sure and safe regulator of the human organism—effectually restoring to a healthy and normal condition the entire mechanism of the system. No pain or headache caused by its use, and so harmless in its action that a child may use it with perfect safety. One of our bonanza kings made the remark the other day, that he had derived more actual benefit from the use of the Yerba Buena Bitters than from all his shares in Consolidated Virginia.

International Exchange.

The steamer which sailed from the bay to-day took out 91,840 trade dollars for China. This will enable about 2,000 more of the "oppressed and down-trodden of all nations" the most debased and detestable to reach the golden shores of the Pacific, where they will be received with open (fire) arms by the (lager and) liberty-loving hoodlum. And thus, by the exchange of such commodities as each can best afford to spare and is least inclined to encourage at home, is the most cordial friendship fostered between the Great Republic and the Great Empire, as they shake hands across the tranquil Pacific and grow richer, and wiser, and "worser" all the while.

A Block Book.

In our report of the forenoon proceedings of the Board of Supervisors, published yesterday afternoon, we wrote that a large number of the county officers and their deputies had petitioned the Board for a block book, showing at a glance the situation of any block or lot of land in Oakland, the same to be kept in the Court-house for the convenience of the officers and the public in general; but alas for the mutability of human affairs, and especially of reportorial copy, the proverbially "intelligent compositor" made us say that the county officers had petitioned the Board of Supervisors for a "blank" book. The funeral will take place to Potter's field as soon as the body descends from the great hight to which we "blow him up."

An Old Offender.

The only arrest made by the police to-day was that of Ah Jim, on suspicion of burglary. A quantity of harness was stolen from a stable in East Oakland last night, and early this morning a Chinaman was seen to emerge from the premises. He had probably gone back after a horse, when daylight overtook him. Officer Tyler was informed of the affair, and started in the direction the Chinaman had taken. His search was soon rewarded by finding Ah Jim, a Celestial whom the officer recognized as an old offender, and one who once represented this city in San Quentin. Ah Jim was landed in the City Prison.

Getting Along.

There are different ways of getting along, as progress is sometimes called in this world. It does not always mean making a large sum of money, or being a great man for people to look at with wonder. Leaving off a bad habit for a good one is getting along; to be clean and tidy, instead of thoughtless and extravagant, to work as diligently in the master's absence as in his presence, is getting along; in short when we see any one properly attentive to his duties, persevering through difficulties to gain such knowledge as will be of use to himself and others, offering good examples to his relatives and acquaintances, we may be sure that he is getting along in the world.

Money is a very useful article in its way, but it is possible to get along with small means. Perseverance is often better than a full purse. Many people fall behind, or miss the way altogether, because they do not perceive the simple and abundant means of getting along which surround them on every side; and it very often happens that these means are aids which can be had for the taking, but which money could not purchase.

Those who really wish to get along in the world, in every sense of the word, must have a large stock of patience and perseverance, of hopeful faith and confidence in Truth, be willing to learn, and profit by the experience which may be learned every day from nearly every person with whom they come in contact; above all a disposition not to be cast down by difficulties and disappointments.

Centennial Memoranda.

A small place has been selected for the Greek contributions. It is known as the Greece spot.

An Esquimaux who has been requested to contribute a representative of game has sent an old sledge.

The Algerines would like to have had the exposition open April first, as that is the day of all jeers.

The perfumery display will be very fine—in fact no person will be admitted unless he contributes fifty cents.

The Tartars have made a remarkable stride forward. The steppes of their own country cannot be exhibited here, however.

In the Spanish department there will be a display of remarkable taste, for at the restaurants you may not only see a cigar smoked but a cigarette.

Yale and Harvard will send specimens of the best ores of the United States—bow and stroke, perhaps—contributed by practical minors who are now "digging."

One of the Arabs who arrived early, said to have come before dinner was finished, because he left the desert behind him, has got a bad cold, which has given rise to the report that there is an Arab hearse on the grounds.—*Boston Commercial Bulletin.*

—To a great many people orthodoxy is only another word for stupidity. They talk as if to be orthodox a man must needs tie his mind to a post and amuse himself by nibbling it like a cribbing horse; whereas, orthodoxy means progress, investigation, new ideas, and holier impulses than the ancients ever felt. True orthodoxy leads the van of human thought; she scouts in front of God's army and pioneers the race along the path which is to lead it to that kingdom over which Emanuel is to rule. There is no such thing as a stand-still orthodoxy. Every pious mind revolts at such a stopping of God's chariot wheels. Our orders are to march. It is safe to say that the true Church never halts.—*Murray.*

REAL ESTATE AND Waterworks Company.

THIS COMPANY IS ORGANized for three main purposes: ONE, the purchase and improvement of 220 acres of land near the State University; the SECOND, the immediate construction on a portion of said land of a FIRST-CLASS HOTEL, with numerous COTTAGES and VILLAS; and the THIRD, the construction of WATERWORKS of such a character as will secure a sufficiency of water for the wants of Berkeley for many years to come. The site of the land is extremely picturesque and charming. The property contains within itself the invaluable water privileges which are necessary for the Waterworks; one reservoir alone will have a capacity of 150,000,000 gallons, principally fed from the Cordonices Creek.

A FORTUNE FOR NOTHING!

The Company is organized with 5,000 shares of $100 each, payable in installments of FIVE DOLLARS per share per month. Incidents of Luck.

A Mr. Green Wilkinson, of London, let an old man into his pew, and that old man left him £7,000 a year for so doing. There is a gentleman in New York society to-day, who had an acquaintance, an Englishman, many years his senior. This Englishman always showed a liking for him, and when the American went to London he paid him a visit. The Englishman said one day that he wished to make him a little present, and when he opened the check handed to him he found it was for quite a large sum. This made him think that possibly he might have a legacy of $5,000. But what happened a few years later? A solicitor in London apprised him that his client had left the American all his American securities amounting in the aggregate to some $600,000.

And wasn't that pure, unadulterated luck which laid the foundations of the great English historic family of Russell. A storm compels a foreign Duke coming to see Henry VIII. to put into Weymouth. Sir Thomas Trenchard, the principal gentleman in the neighborhood, hastens to offer hospitality. But there's no one to talk to His Highness in his own tongue. Happy thought! "My cousin Russell." Off goes a groom to Kingston Russell, they have their ancient patrimony still. "For heaven's sake come over and help me with the the Spanish Duke." Russell comes; fascinates his Highness; is carried to Court; fascinates Henry; gets such a share of monastic and other plunder as subject never got before, nor will again, and dies Earl of Bedford, K. G., etc.

Exposures.

We are not alarmed or discouraged by the exposures of rascality in high places and low, which greet our eyes in almost every morning's newspaper. These exposures are the natural product of healthy reaction, the preliminary steps toward the national cure. So long as fraud, peculation and defection exist, the faster these exposures become the better. Every exposure is a preacher of righteousness, an evangel of reform. The more dangerous all rascality and infidelity to trust can be made to appear, the better for society. In any cutaneous disease the more we see of it the better. It is before it appears, or when it is sunk from the surface, that it is most dangerous to the sources of life and the springs of cure.—*Dr J G. Holland.*

SOMETHING NEW!

CHURCHMAN'S

IMPERIAL

Baking Powder.

THE PUREST AND BEST.

THIS POWDER IS THE RESULT OF EXtended scientific experiments, supplemented by the most thorough practical tests hence its unrivaled excellence and consequent popularity. The attention of dealers, as well as of consumers, is called to the following summary of its merits

1 It is composed of the best and purest materials, containing neither alum, crude argol, chalk, terra alba, carbonate of ammonia, nor any other of the unwholesome adulterants in common use among unscrupulous manufacturers for cheapening the production of Baking Powder

2 Its chemical constituents, unlike those of most other Baking Powders, are such as enter into the structure of the physical organism thereby promoting health and strength, instead of clogging the system with inert substances

3 Its elements are so nicely proportioned and thoroughly incorporated—the most approved steam machinery being used for the latter purpose—that perfect neutralization of the chemicals is secured, and hence, no free soda or other alkali is left in the articles of food leavened by it

4 It will not discolor the whitest flour or other ingredient nor impair the most delicate flavor

5 It is unexcelled in reliability, efficiency, and economy when properly used in connection with good flour and like ingredients

6 If securely protected from moisture by enclosure in a suitable receptacle, as a bottle or tin cannister, it will remain good for any length of time

Rationale of Baking Powder.

In the employment of Baking Powder, or any equivalent thereof, the carbonic acid gas set free by chemical reaction among its constituents in a state of solution, is the direct agent of levitation, and the purer the chemicals the more rapid is the liberation of this gas, therefore, the grand secret of success with a strictly pure Powder like the "Imperial " will be found to lie in a prompt utilization of the leavening gas before its escape from the dough or other mass in which it is generated. Failures arising from ignorance or neglect of this essential principle, are not justly chargeable to imperfection in the Powder used
